DRI #230 - SARASOTA-BRADENTON INTERNATIONAL AIRPORT S/D MANATEE COUNTY / SARASOTA COUNTY / CITY OF SARASOTA RY 2003-04

On November 18, 1986, the Florida Land and Water Adjudicatory Commission granted a Development Order to the Sarasota-Manatee Airport Authority for a new 173-acre terminal complex and other improvements at the existing, 1,102-acre airport facility located in southwestern Manatee County, northwestern Sarasota County and the City of Sarasota (DRI #124). The aircraft runways and portions of Airside B and the aircraft parking aprons are located in Manatee County.

The Manatee County Development Order has been amended only once on July 26, 1990, to authorize construction of an additional passenger gate. The Manatee County Development Order expired on April 8, 1996. The Sarasota County Development Order has been amended three times (1986, 1987 and 1989).

On December 15, 1999, Manatee County adopted Resolution No. 99-50 as a Substantial Deviation Development Order (DRI #230). The Resolution authorized a 2,500 linear foot expansion of Runway #14-32, additional aircraft hangars and additional commercial and office entitlements in Phase I with a buildout date of December 31, 2005. Phases 2 and 3 have conceptual approval to include additional commercial, office, industrial and hotel development, a 175,000 sq. ft. terminal expansion and a 800-space parking garage. Specific Phase 2 and 3 approval is contingent upon further Chapter 380.06, F.S. transportation analysis and verification of acceptable Noise Abatement measures and performance standards. The Development Order expires on December 31, 2015.

On February 26, 2003, the applicant submitted a Substantial Deviation Application for Development Approval. The applicant requests the following summary of modifications proposed for the Development Order. The proposal is currently being reviewed under DRI #254.

- consolidation of Phases 1 and 2 with an identified buildout date of December 31, 2009;
- and additional entitlements proposed within the airport parcel as well as four outparcels.

The following identifies the extent of approved development for DRI #124:

Projected Development: no specific development activity has been identified for the next reporting period.

SUMMARY OF DEVELOPMENT ORDER CONDITIONS

1. The developer has submitted the Biennial Traffic Monitoring Study under separate cover to the RY 2002-03 Annual Report in accordance with Condition B(2). The next analysis is expected with the RY 2004-05 Annual Report. The project was approved for 1,117 p.m. peak hour trips through Phase I development.
2. The developer has confirmed that the required additional southbound lane of U.S. 41 to DeSoto Road has previously been completed.
3. The required annual stormwater monitoring was conducted on June 11, 2004 and included in the annual report. Monitoring results indicate that all Airport Ponds appear to be functioning properly. The proposed maintenance regiment includes removing undesirable vegetation with herbicide in Pond A, remove hydrilla and apply chemical spray in Pond B, and remove both hyacinth and hydrilla in Pond D.
4. The "Aircraft Activity and Noise Monitoring Program" was included within the Annual Report. Noise exposure contours for 2003 indicate that 1.85 square miles are within the 65

Ldn contour area. In addition, the number of citizen complaints has been reduced over the last seven years (100 in 2003, 127 in 2002, 274 in 2001, 381 in 2000, 549 in 1999, 931 in 1998, and 1,262 in 1997).

5. The Airport Authority has continued the Fee Simple Acquisition Program (FSAP) in the 65+ DNL. All houses have been resold with the exception of one which was used as Residential Sound Insulation meeting house. During the reporting year, one home was sold and one acquired under the FSAP. The developer has continued to implement a *Sound Insulation Program* (SIP) for installation of acoustical noise insulating products in eligible conventional homes. This program includes acoustic windows and doors, attic insulation, caulking and sealing, and gable vent and air conditioning modifications. A total of 153 homes have been sound insulated since the inception of the program in 2001, five of which were completed in 2003. Installation of sound insulation measures has been initiated for five more homes during the reporting year and the developer has identified that sound insulation is “eminent” for 91 additional homes.

The project appears to be in compliance with all other conditions at this time.

DEVELOPER OF RECORD

Sarasota Manatee Airport Authority, 6000 Airport Circle, Sarasota, FL 34243, is the firm responsible for adhering to the conditions of the Development Order.

DEVELOPMENT ORDER COMPLIANCE

The project appears to be proceeding in a manner consistent with the Development Order. Manatee County, Sarasota County and the City of Sarasota are responsible for ensuring compliance with the terms and conditions of their respective Development Orders.
