### DRI #251 - FOUR CORNERS MINE ADDITION/PHASE 2 MANATEE COUNTY RY 2003-04

On September 5, 1991, the Manatee County Board of County Commissioners granted a Development Order (Ordinance No. 91-62), a Substantial Deviation to only the Manatee County portion of DRI #52, to IMC Fertilizer, Inc. (now IMC Phosphates Company). DRI #52 authorized the mining of more than 18,500 acres, of which 9,952 acres are located within two tracts of northeast Manatee County (4,906 in the Jameson Tract and 5,052 acres in the Northeast Manatee Tract) and the remaining 8,727 acres located in southeastern Hillsborough County. The Four Corners Mine Substantial Deviation includes: revision of the mining and reclamation plan for the existing Jameson Tract; extension of Jameson Tract mining period to November 30, 2006 and reclamation period to 2010; and the addition of 211 acres for mining in the Jameson Tract which were not previously approved for mining.

The Development Order has been amended three times, most recently on September 26, 1996 (Ordinance 96-43). The amendments have cumulatively: resolved an appeal by the developer and TBRPC; reduced the aforementioned 211 acres to 170 acres; added water quality monitoring/reporting requirements; required the establishment of a Wildlife and Habitat Management Plan for the land addition; approved a specific truck haul route from Four Corners Mine to Piney Point/Port Manatee; required submittal of the approved Spill Notification, Containment and Contingency Plan for F-3 to TBRPC; and approved the two month and 28 days extension of the effective period for Ordinance 95-41 (to December 31, 1996) to effectuate the aforementioned land exchange and obtain the proper rezoning classification.

On November 21, 2002, the Manatee County Board of County Commissioners approved an additional Substantial Deviation Development Order (Ordinance No. 02-58). The Ordinance supercedes and replaces all former Development Order authorizations for the project. The proposal essentially added provisions to mine an additional 1,111 acres. In total, the project allows for the mining of 10,450 acres of the overall 11,157 project acres. The anniversary date for the Annual Report is July 31<sup>st</sup>.

#### **PROJECT STATUS**

***Development this Reporting Year:*** a total of 993 acres were mined and 696 acres were disturbed within the Northeast Tract during the reporting year. In addition, the developer has relocated Bunker Hill Road in May, 2004 to the acceptance of Manatee County.

***Cumulative Development:*** to date, a total of 4,524 acres have been mined, of which 2,945 acres are within the Jameson Tract. The remainder is in the Northeast Tract.

**Projected Development:** the developer anticipates mining 830 acres within the NE Tract next year.

### **SUMMARY OF DEVELOPMENT ORDER CONDITIONS**

1. As identified in Sections 4.C. & 4.D. of the Development Order, respectively, mining shall be completed at the Jameson Tract by November 30, 2006 (reclamation completed by 2018) and by 2006 at the Northeast Manatee Tract (reclamation completed by 2010).
2. Monitoring results of the Groundwater Monitoring Program [Conditions 6.B.(1) & 6.K.(1)] and Surface Water Monitoring Program [Conditions 6.C.(2) & 6.L.(2)] have been provided within the Annual Report as required by their respective Conditions. Results of the monitoring of mitigation areas and littoral shelves shall be provided within each Annual Report once conducted. [Conditions 6.D.(2)(d) & 6.M.(1)(c)]
3. Wildlife and Habitat Management Plans have been approved for the “170 Acre Addition” and the “Land Exchange Area” in accordance with Conditions 6.F.(3) & 6.F.(5).
4. The developer has provided the a.m. peak-hour and average daily traffic counts at the project entrance in order to verify that the projected number of external trips for the project have not been exceeded, as stipulated in Condition 6.I.(2). The results of the monitoring event conducted on July 7-9, 2004 revealed that the project is currently generating 1,191 of the approved 2,130 daily trips (55.92%) and 175 of the approved 239 a.m. peak hour trips (73.22%).
5. Mining shall terminate on December 31, 2018. The Development Order expires upon the earlier of December 31, 2029 or when all reclamation has been completed and accepted by Manatee County. [Condition 6.U.(6)]
6. The Developer shall grant three parcels, totalling 700 acres, to FDEP for perpetual conservation easements. The timing and details of these requirements are outlined in Condition 6.U.(19). The developer alleges that the easement has been submitted to FDEP for acceptance.

The project appears to be in compliance with all other conditions at this time.

### **DEVELOPER OF RECORD**

IMC Phosphates Company, Post Office Box 2000, Mulberry, FL 33860 is the firm responsible for adhering to the conditions of the Development Order.

### **DEVELOPMENT ORDER COMPLIANCE**

The project appears to be proceeding in a manner consistent with the Development Order. Manatee County is responsible for ensuring compliance with the terms and conditions of the Development Order.
