DRI #242 - CARGILL RIVERVIEW FACILITY S/D HILLSBOROUGH COUNTY RY 2004-05

On August 20, 1984, Hillsborough County granted a Development Order to Gardinier, Inc. for a 326-acre gypsum disposal project located on 629.9 acres in west central Hillsborough County. The project site is located near the west coast of Hillsborough County, east of U.S. 41, north of Riverview Drive and the Alafia River. No Development Order expiration date was adopted in association with the (original) Development Order. The Development Order has been amended only a single time, on September 22, 1993 (Resolution R93-0172), to increase the allowable height of the gypsum stack from 100' to 200' above the starter dike.

On June 13, 2000, the Hillsborough County Board of County Commissioners granted a Substantial Deviation Development Order (SDDO) to Cargill Fertilizer, Inc (Resolution No. 00-111). This SDDO authorized expansion of the existing gypsum stack by 50 feet in height (to 260'); extension of the facility operating life (to December 31, 2042); relocation of cooling ponds; and rerouting of Archie Creek. The expansion will involve extending the existing phosphogypsum stack (stack and cooling ponds) 90 acres southward, over the area now occupied by a cooling pond and approximately an additional 800 feet further south. The existing cooling pond will initially be relocated to the southern area of the site, and eventually, to the top of the phosphogypsum stack. The total area added to the DRI for the phosphogypsum stack expansion will be approximately 376 acres. Project buildout is scheduled for December 31, 2037 and, as previously stated, the Development Order expires on December 31, 2042. The anniversary date for the Annual Report is June 30th.

The developer previously acquired two parcels (totalling 5.25 acres). The developer acknowledged that "there are no development plans for these properties." A map illustrating these parcels has been provided within the RY 2000-01 Annual Report.

On August 19, 2005, the applicant submitted a Notice of Proposed Change application to request a modification to the Development Order to impose a condition requested by the Environmental Protection Commission of Hillsborough County. The proposed Condition resulted from a process water spill in September 2004 and subsequent Process Water Reduction Plan meetings, reviews and supporting documents.

PROJECT STATUS

Development this Reporting Year: Stack expansion construction activities have not yet commenced. Approximately 4.2 million tons of phosphogypsum were placed on the field during the reporting year.

Cumulative Development: Approximately 64.4 million tons of phosphogypsum has cumulatively been deposited with an average stack height of 172 feet above the starter dike.

Projected Development: the developer anticipates placing an additional 5.0 million tons of phosphogypsum on the stack during the next reporting year.

SUMMARY OF DEVELOPMENT ORDER CONDITIONS

1. The developer has installed ambient air quality monitoring devices at the Progress Village Middle School and the Gibsonton Elementary School in accordance with Condition IV.A.8.a.. In addition, as required by Condition IV.A.8.c., the developer has installed an effective odor abatement system designed to reduce off-site odor.
2. The developer has posted their Integrated Land Management Plan (ILMP) to their web page (“www.cargill-neb.com”), allowing for the review and feedback of others. The ILMP includes a summary of all restoration activities and monitoring as required by Condition IV.B.2.a.
3. Restoration activities associated with the “Stack Buffer Management & Protection Plan” [Condition IV.B.2.b.], the “Giants Camp Shoreline” [Condition IV.B.2.c.], the “North Parcel” [Condition IV.B.2.b.], “Archie Creek” [Condition IV.B.2.f.], and “North Parcel East” [Condition IV.B.2.g.] shall all be completed within five years of the effective date of the Development Order (by August 19, 2005) unless an extension has been granted by the restoration reviewing agencies in accordance with Condition IV.B.2.h. Verification of completion of these restoration activities shall be provided within the next Annual Report.
4. The developer has completed construction of a one-acre community garden with irrigation system for the Progress Village Civic Association (Condition IV.B.7.) and an educational center and elevated observation deck on the south parcel (Condition IV.B.8.). The educational center will be made available to local schools or educational groups in addition to the observation deck once completed.
5. As required, the developer has previously contributed: \$12,000 towards the Beach Park element of the Kitchen Plan (Condition IV.B.2.e.); \$20,000 contribution towards the Gardenville Recreation Center improvements (Condition IV.B.9.a.); \$10,000 sponsorship for “Science Camp” (Condition IV.B.9.b.); and \$10,000 to the Riverview Library in order to bolster the environmental section of the library (Condition IV.B.9.c.).
6. While the developer has been currently identified as “Mosaic Fertilizer, LLC,” the original developer of “Cargill Fertilizer, Inc.” shall be recognized until the Development Order has been formally amended in accordance with Subsection 380.06(19)(e)2.a., F.S. In addition, the developer may wish to amend the formal name of the project from “Cargill Riverview Facility.” Officially changing of the project name could/would be accomplished in a similar fashion.

DEVELOPER OF RECORD

Mosaic Fertilizer, LLC, 8813 U.S. Highway 41 South, Riverview, FL 33569 is the firm responsible for adhering to the conditions of the Development Order.

DEVELOPMENT ORDER COMPLIANCE

The project appears to be proceeding in a manner consistent with the Development Order. Hillsborough County is responsible for ensuring compliance with the terms and conditions of the Development Order.
