## **SUMMARY OF DEVELOPMENT ORDER CONDITIONS**

1. Since cumulative extensions have been previously granted for the former Apollo Beach development, any future extension request beyond the established December 31, 2011 buildout date is presumed to create a Substantial Deviation pursuant to Subsection 380.06(19)(c), F.S., as stated in Condition III.D.
2. The developer submitted the results of the annual traffic count monitoring prepared in accordance with Condition IV.A.1.a. The results of the February 4-6, 2008 monitoring event revealed that the project is currently generating 373 p.m. peak hour trips in comparison with the approved 2,553 trips (1,398 Inbound/1,155 Outbound).
3. The developer previously identified that the second westbound left turn lane on U.S. 41 at Big Bend Road has been constructed in accordance with Condition IV.A.2.a.
4. Prior to removing the earthen plug associated with the former Pocket 108 boat lift, the developer shall institute the actions cited under Condition IV.C.2., including: the installation of speed zones, motor prohibition, seagrass informational markers and a buoy marker system; maintenance and “re-marking” of the navigational channel; establishment of an educational program and marketing materials for the limited access to the lagoon system; and a declaration statement for the lots located along the lagoon system. The developer has previously reported that: the Manatee Slow Speed Zone Buoys and channel markers have been installed and maintained in Tampa Bay; and the Seagrass Informational Markers have been ordered. The developer previously provided a copy of the “*Your Guide to the Apollo Beach Manatee Zone*” publication available to all Apollo Beach residents and/or interested citizens.
5. The developer has previously submitted a *Non-Potable Irrigation Water and Water Conservation Measures Plan* for the Harbor Bay community, in accordance with Condition IV.D.2.
6. The project’s Water Quality Monitoring Plan was approved by SWFWMD on October 1, 2000 in addition to the initial baseline data. The developer has submitted the results of monitoring events dated June 20-21, 2007, September 27-28, 2007, December 20-21, 2007 and March 27-28, 2008.
7. The developer is required to submit a *Hurricane Plan* in the first annual report submitted following occupancy of any portion of the project (Condition IV.F.1.). In lieu of this requirement, the developer has agreed to provide all existing and future residents and property owners with the appropriate hurricane information including: categories; evacuation routes; shelter information; lists of local fire stations, sandbag locations, hospitals, radio and television stations with corresponding website addresses, where available. The developer allegedly provides this information as part of all “purchase packages.”
8. In accordance with Condition IV.F.5., the developer is required to pay a set fee to mitigate shelter impacts upon the issuance of 339 Certificates of Occupancy for the property located east of U.S. 41 (aka Harbor Isles). At this point, only 60 units have been constructed within this designated location.
