DRI #245 - BIG BEND TRANSFER COMPANY HILLSBOROUGH COUNTY RY 2009-10

On February 15, 2001, Hillsborough County rendered to the Tampa Bay Regional Planning Council (TBRPC) Resolution No. R01-007, a Development Order adopted by the Hillsborough County Board of County Commissioners on January 18, 2001. The project is a Substantial Deviation to DRIs #23/#47, which had expired.

On April 11, 2002, the Hillsborough County Board of County Commissioners rendered to the Tampa Bay Regional Planning Council Resolution No. R02-061, which was adopted on March 26, 2002. This Resolution essentially repealed the previously adopted Development Order (Resolution No. R01-007) on the grounds of a court finding that required the entire 210.82-acre parcel (DRI #47) to be rezoned from "Manufacturing" to a "Planned Development District." This Resolution therefore constituted the Development Order for the project and included a couple of additional modifications requested by Hillsborough County.

The project is located along Tampa Bay on a 17.93-acre tract of the formerly approved 210.82-acre DRI parcel. The Development Order authorized the following:

- one ship/barge unloader; a conveyor system;
- one 154,000 sq. ft./78,000 ton capacity solid sulfur storage building;
- one 17,110 sq. ft. sulfur melting building with three solid sulfur melters;
- one boiler;
- three 10,000 ton liquid sulfur storage tanks;
- one process/purge water storage tank;
- one 12,000 gallon fuel oil storage tank with required secondary containment device;
- four liquid sulfur truck loading stations;
- a 7,500 gallon caustic soda storage tank with required secondary containment device;
- one liquid sulfur rail car loading station;
- miscellaneous ancillary support development to facilitate these uses;
- receipt of a maximum of 2 million long tons of prilled sulfur per year, conversion to molten form, limited storage and transport to sulfur users in central Florida; and
- buildout and Development Order expiration dates of December 31, 2020 have been established.

The Development Order has been amended three times, most recently on October 13, 2009 (Resolution No. R09-138). The amendments have cumulatively authorized: an extension of the project buildout date and Development Order expiration date by a period of four years, 11 months and 20 days (to December 21, 2025); renamed the authorized agent (to Mr. Rich Krokowski of Mosaic Fertilizer, LLC); and cumulatively extended the development commencement date and the date by which the Developer must "dedicate two acres for construction of a fire station, or donate cash for an equivalent amount" by a period of 14 years, 11 months and 20 days (each to March 16, 2019). The members/partners of the Big Bend Transfer Co., LLC

are CF Industries, Inc., Mosaic Fertilizer, and IMC Big Bend Inc.

PROJECT STATUS

Development this Reporting Year: construction has not yet commenced for the project.

Cumulative Development: No development activity has occurred to date.

Projected Development: no specific development activity has been identified for the next reporting year.

SUMMARY OF DEVELOPMENT ORDER CONDITIONS

1. The developer has reported that no solid sulfur was received during the reporting year, in accordance with Condition III.G.
2. The Developer provided a summary of the required quarterly surface and annual groundwater quality monitoring in accordance with Conditions III.L.3. and III.L.4., respectively. The results were provided as Exhibit D of the RY 2009-10 Annual Report. **Council staff has perpetually requested that the State standards for each monitoring parameter be incorporated into the monitoring summary sheets for convenient comparative purposes.** This request has yet to be reflected.
3. Condition III.P. requires the Developer to prepare and submit a *Hurricane Preparedness Plan* to Hillsborough County, the TBRPC and the FDCA for review prior to operation of the facility. The developer has indicated that such submittal will be provided upon commencement of construction.
4. At the discretion of Hillsborough County, the developer shall either dedicate two acres (on-site or within two miles of the site) to Hillsborough County for a HAZMAT fire facility or donate the cash equivalent to the appraised value of the 2.5-acre Adamsville Fire Station site, by March 16, 2019, as recently extended by Condition III.S.4.

DEVELOPER OF RECORD

Big Bend Transfer Company, LLC, 12839 Wyandotte Road, Gibsonton, FL 33534 is the firm responsible for adhering to the conditions of the Development Order.

DEVELOPMENT ORDER COMPLIANCE

The project appears to be proceeding in a manner consistent with the Development Order. Hillsborough County is responsible for ensuring compliance with the terms and conditions of the Development Order.
