DRI #97 - ST. PETERSBURG INTOWN AREA WIDE CITY OF ST. PETERSBURG RY 2014-15

On December 15, 1986, the St. Petersburg City Council, as the local government, granted a Development Order to the City of St. Petersburg, as Applicant, for a three-phase, 458-acre, multi-use development located in central St. Petersburg. The project includes 309 acres that are also regulated under the Intown Redevelopment Plan in accordance with Chapter 163, Part III, Florida Statutes (F.S.); the central business district; the stadium and adjacent residential and commercial areas.

Existing development at the time of approval of the Development Order was as follows: 5,100 dwelling units; 4,800 rooming units; 2.1 million sq. ft. of retail sales/service area; 3.2 million sq. ft. of office space; 170,000 sq. ft. of industrial space; 220,000 sq. ft. of public/semi-public land uses; a 10,681-seat entertainment center; a 6,300-seat sport field and a 609-slip marina. Only the construction of office space has been proposed and approved during Phases 2 and 3.

The Development Order has been amended three times, most recently on November 1, 2007 (Ordinance No. 709-G). The amendments have extended the time schedule associated with select road improvements; extended the phase buildout dates and the Development Order expiration date; and placed restrictions on the reservation of building capacities. The buildout and Development Order expiration dates have been subsequently and further extended in accordance with various legislative approvals and three Executive Orders enacted by the Governor in 2012. The revised buildout and Development Order expiration dates are now April 29, 2019.

A letter dated April 17, 1997 was received from the City addressing construction of a proposed 50' x 24' 'T-dock' extending from the seawall in the Vinoy Basin. The dock would exclusively serve ten 10' electric boats and one 18' chase boat. TBRPC concluded that such construction would not produce any regional impacts. Based on this fact and consistent with Section 5.N. of the Development Order, the City will not be required to amend the Development Order to reflect this addition.

PROJECT STATUS

Development this Reporting Year & Cumulative Development: Please refer to **Table 2** for the phasing schedule, current development activity and cumulative development totals.

Projected Development: the Developer has identified that development will coincide with market demand.

SUMMARY OF DEVELOPMENT ORDER CONDITIONS

1. In accordance with Condition V.B.1., the Developer has identified that the 6th Street South road widening and the 54th Avenue North road widening (from Haines Road to I-275) have both been completed. In addition, the City has identified that the 9th Street/22nd Avenue North intersection is currently operating at LOS “C” and, thus, improvements are not yet required. However, funding was provided to construct pedestrian safety improvements at this intersection.
2. Prior to the issuance of any construction permits for Phase 2, the Developer shall document funding commitments for the specified Phase II transportation mitigation projects. Construction of such improvements shall commence prior to issuance of any construction permits for Phase 2 as required by Condition V.B.2. Per Condition V.B.3., construction permits shall not be issued for Phase 3 until the Developer ensures that specified funding commitments have been established for the associated transportation impacts of this phase.
3. **Table 1** represents a cumulative listing of properties designated as local landmarks by the City Council by reporting year, consistent with Conditions V.E.1. and V.E.2.
4. As required by Condition V.H.1., each Developer of a 240,000 sq. ft. or larger parcel of office space or 280-room hotel shall prepare and submit a *Hurricane Evacuation Plan* acceptable to the City’s Disaster Preparedness Coordinator prior to issuance of Certificates of Occupancy. These Plans shall be included in each respective annual report submitted following occupancy of the facility. No such facilities were constructed during the reporting period.
5. The City indicated that the Florida Department of Environmental Protection (FDEP) had previously approved the *Manatee Protection Plan* as required in the settlement agreement for the marina in the Vinoy Basin and Condition V.N. As Developer, the City has, once again, acknowledged their continued compliance with the terms and conditions of the settlement agreement, including water quality monitoring and manatee protection. The City subsequently constructed 52 slips in the South Mole and, as part of the conditioned approval by FDEP, erected signs notifying boaters around the Mole basin of the presence of manatees and provided manatee educational materials.
6. Section 10.3 of the Development Order obligates the Developer to submit an Annual Report “*on January 31 each year.*” It is hereby acknowledged that the Report that was due on January 31, 2015 was not submitted until June 17, 2015.

DEVELOPER OF RECORD

The City of St. Petersburg (as Developer), 175 5th Street North, P. O. Box 2842, St. Petersburg, Florida 33731, is the entity responsible for adhering to the conditions of the Development Order.

DEVELOPMENT ORDER COMPLIANCE

The project appears to be proceeding in a manner consistent with the Development Order with the exception of the issue identified as *Summary of Development Order Condition #6*, above. The City of St. Petersburg (as local government) is responsible for ensuring compliance with the terms and conditions of the Development Order.
