### **DRI #80 - BIG FOUR MINE SUBSTANTIAL DEVIATION HILLSBOROUGH COUNTY RY 2014-15**

On April 14, 1982, Hillsborough County granted a Substantial Deviation Development Order to AMAX Phosphate, Inc., for a 200-acre mining expansion (substantial deviation) on lands purchased between 1977 and 1980 at the Big Four Mine (previously approved as DRI #50). The DRI parcel and development rights were purchased by, and transferred to, Mobil Mining and Minerals Company in February, 1987.

The Development Order has been amended a total of three times, most recently on April 24, 2001 (Resolution No. R01-089). The amendments have cumulatively: added two parcels totaling 80 acres; deleted a 60-acre parcel; recognized the sale of the Big Four Mine to IMC (the project was subsequently acquired by Mosaic Fertilizer, LLC); revised the Annual Report anniversary date to July 31<sup>st</sup>; authorized pipelines to be constructed between the Big Four Mine and nearby IMC mines; formally recognized a name change of the Developer to IMC Phosphates Co.; authorized mining to occur in the BF-1 clay settling area; and extended the mining period and the Development Order expiration date by a period of 11 years, 11 months and 15 days. Through a May 5, 2008 correspondence, Hillsborough County subsequently granted further extensions of the mining period and Development Order expiration date by three years, each to May 4, 2011, in accordance with 2007 revisions to Subsection 380.06(19)(c), F.S.

#### **PROJECT STATUS**

As currently approved, the project entails a total of 5,940 mineable acres.

***Development this Reporting Year:*** no mining or reclamation activities occurred during the reporting year. However, it appears that 146 acres were additionally released by the FDEP.

***Cumulative Development:*** a total of 4,166 acres have been mined. As identified in the “*Big Four Mine Financial Responsibility*” table, a total of 1,773 previously-mined acres (across 18 mine sites) and 228 previously-disturbed acres (across 17 mine sites) have been cumulatively released by FDEP in accordance with their Reclamation Program, for a total of 2,001 acres.

***Projected Development:*** the Developer acknowledged that “mining is complete and Mosaic has no plans to mine additional land at the Big Four site.” However, the Developer did acknowledge that vegetative monitoring and final reclamation activities will continue.

## **SUMMARY OF DEVELOPMENT ORDER CONDITIONS**

1. The Big Four Mine's Consumptive Use Permit issued by the Southwest Florida Water Management District (SWFWMD) allowed for deep well pumping of 6.37 million gallons per day (mgd). The permit volume was reduced to 3.0 mgd in 1997. In lieu of renewing the permit independently, the SWFWMD previously added the 3.0 mgd of water to the overall IMC Water Use Plan.
2. The Developer has identified that all required monitoring programs continue to be instituted with results provided to the appropriate agencies with the exception of the rainfall readings at the Big Four Mine site. A summary of the following monitoring results has been included in the RY 2014-15 Annual Report: *Industrial Wastewater Discharge* (daily), *Surface Water Quality Sampling* (monthly), *Rainfall Monitoring* (daily) conducted at two of Mosaic's adjacent mine sites, and *Surficial Water Table Monitoring* (monthly).
3. As previously reported, the SWFWMD and Hillsborough County accepted the Developer's 1983 study of the 25-year floodplain of the Alafia River South Prong in lieu of the requirements of Condition III.B. No mining shall occur within the 25-year floodplain of the Alafia River and tributaries (Condition III.B.1). The land comprising the 25-year floodplain of the South Prong of the Alafia River shall be dedicated to the County at the end of the mine life (Condition #6/DRI 75-13).
4. The *Financial Responsibility Statement* was included in the Annual Report as required. The Developer estimated their total financial liability through July 1, 2015 to be \$2,100,000 and projected their liability through June 30, 2016 to remain the same.

## **DEVELOPER OF RECORD**

Mosaic Fertilizer, LLC, Attention: Michael DeNeve, 13830 Circa Crossing Drive, Lithia, FL 33547 is the firm responsible for adhering to the conditions of the Development Order.

## **DEVELOPMENT ORDER COMPLIANCE**

The project appears to be proceeding in a manner consistent with the Development Order. Hillsborough County is responsible for ensuring compliance with the terms and conditions of the Development Order.
