

## Project Turbo

The Tampa Bay Regional Planning Council (TBRPC) has conducted an analysis of a turbine generator manufacturing plant relocation which employs 26 individuals and conducting around \$7.5 million of annual sales. TBRPC utilized its REMI Policy Insight model to generate the employment forecasts.

### Employment Impacts

Project Turbo would employ 26 direct jobs. The 26 direct jobs at the facility are estimated to generate an additional 17 induced and indirect jobs for a total of 43 jobs for Pasco County. The combined jobs created generate an average of \$1.7 million in personal income.

These combined jobs also contribute an estimated \$3.2 Million to the Gross County Product. The Gross County Product is a concept analogous to the national concept of Gross Domestic Product. It is equal to output excluding the intermediate inputs. It represents compensation and profits. Below is a chart depicting the impacts.

Employment Impacts	
Employment	43
Gross County Product (\$ Mil)	3.2
Personal Income (\$ Mil)	1.7
