

Tampa Bay Regional Planning Council

Economic Modeling Request Information Sheet

Project Name:	
NAICS Code:	Industry:
General Description:	
Requested by:	Phone:
E-mail	Fax:

One or more of the following input variables are needed. The more the better.

Employees:	
Wage data:	
Facility construction costs:	
Equipment spending:	
Operation start date / % of capacity:	
Sales data of product produced:	
State and local government spending:	

For an even better analysis, provide the following type information:

- Intermediate demand (inputs purchased for processing, etc.)
- Growth rates in the variables above. For example, sales expected to increase 10% per year.
- Detailed construction data, especially if situation involves special materials or contractors.
- Breakdown between local and non-local contractors, suppliers, etc.
