Category 5	157 and over

### LEGEND

**Evacuation Levels**

- Level A - Evacuate red areas and all manufactured home residents
- Level B - Evacuate red and orange areas and all manufactured home residents
- Level C - Evacuate red, orange and yellow areas and all manufactured home residents
- Level D - Evacuate red, orange, yellow and green areas and all manufactured homes
- Level E - Evacuate red, orange, yellow, green and purple areas and all manufactured home residents

Evacuation Routes

**\* If you live in a mobile home, you MUST EVACUATE regardless of its location in Hernando County\***

### USING YOUR COUNTY MAP

- Locate where you live and work on the map.
- Determine whether you are in an evacuation area, and if so, what level (color).
- If you are in an evacuation area, or mobile home/manufactured home/RV, decide where you will go if ordered to evacuate. Your choices include:
  - Home of a relative or friend outside the evacuation zone
  - Hotel/motel outside the evacuation zone (make arrangements early)
  - Go to a public shelter
  - As a last resort leave the area entirely
- If you must go to a public shelter, use your county map to decide which one is convenient. Make sure you verify the shelter is open before you go.

### HURRICANE THREAT

- The colored areas on the map are vulnerable to storm surge. Storm surge is the saltwater flooding that rushes over coastal areas when the eye of a hurricane crosses land.
- Storm surge creates a path of destruction, wiping out structures as it rapidly surges inland and then recedes. This is a life threatening situation for anyone who ignores mandatory evacuation orders and stays in vulnerable areas.
- Hurricanes are categorized on a scale of 1 to 5, depending on wind strength and destructive power. The evacuation zones are color coded to designate the level of storm surge likely to occur with the five categories.
- If you live in an area ordered to evacuate, gather your family/pets and emergency supplies, secure your home and leave immediately. Failure to obey a mandatory evacuation order is a violation of state and local laws.

**Note: All persons living in mobile homes/manufactured homes/RVs must evacuate for all mandatory evacuation orders, regardless of where you are located in the county.**

**Message from Hernando County Sheriff Al Nienhuis**

Dear Residents,

For the first time in recent history, weather forecasters are not attempting to make pre-season storm forecasts. This change does not mean that you should become complacent and postpone preparations. I feel it is never too early to start preparing for the upcoming hurricane season, especially considering the devastation resulting from just one hurricane.

The Sheriff's Office, in partnership with the county and the cities, is committed to providing our residents with assistance before, during and after any disaster.

I strongly encourage each of you to assist us in our mission by assuming personal responsibility for your own safety. Please use the information in this guide to create a plan to protect your family, pets, and businesses.

By working together, we can effectively prepare for, respond to, mitigate against, and recover from any emergency.

Sincerely,  
  
 Al Nienhuis  
 Sheriff
