Brightline Station Area Study

HILLSBOROUGH TPO | BRIGHTLINE STATION AREA STUDY

Station Needs Survey

Survey Flyer

**Tampa Brightline Station Survey**

Hillsborough TPO Transportation Planning Organization

Together with its partners, the Hillsborough TPO is exploring access and connection possibilities for a potential Brightline station in the greater downtown Tampa area. We invite you to share your thoughts on how people should access and connect to and from a potential station in downtown Tampa.

**STUDY GOALS**

- Identify potential Brightline users
- Assess demand for multimodal connections to key destinations
- Evaluate mobility and infrastructure improvements
- Develop an early action plan for funding, planning, and stakeholder coordination

**YOUR FEEDBACK WILL HELP US:**

- Understand destinations and travel modes from the station
- Identify key connections, transit, walking, biking, rideshare, and driving
- Highlight ways to improve station access for residents, commuters, and visitors

**TAMPA BRIGHTLINE STATION STUDY AREA**  
 The location of a potential Tampa Brightline station has not been determined. This map is part of an exploratory study intended to gather input on travel preferences, access needs, and connectivity options.

**COMPLETE THE SURVEY BY MAY 31, 2025.**

**Bicycle & Shared Use Paths:  
 Conceptual Connectivity Plan**

The bicycle and shared use path map focuses on improving the safety and access while enhancing connectors to nearby areas such as INCORE and the Channel District. It also identifies improved east-west and north-south routes throughout Downtown Tampa and Ybor City. The map shows existing and planned bike lanes, cycle tracks, and shared use paths.

For reference plans and images related to programmed and planned projects, see Appendix D.
